

ABOUT US

HORIMEX s.r.o. primarily deals with the international market for manufacturing and servicing spare parts for land-based military equipment. The company was founded in 1995 and since then it has distinguished itself from other manufacturers by demonstrating its extensive knowledge of all land-based weaponry and their repairs. Thanks to our executives' many years of experience, we are able to produce nearly any spare part whatsoever, even if the technical drawing is missing. HORIMEX is currently the only large manufacturer of spare parts for land-based military equipment in the Czech Republic.

MOJMÍR HORÁK - FOUNDER AND 100% OWNER

I founded HORIMEX after my 15 years of practical experience in the Military Repair Facility 026 in Šternberk. There, among other things, I was actively involved in starting up general BMP-1 and BMP-2 repairs including complex UTD-20 engine repairs. While working at HORIMEX, we have managed to increase the proportion of spare parts we manufacture, ourselves, to 90%, which gives us maximum control over quality. Continual research and development is critically important for us and allow us to aim for greater manufacturing efficiency while maintaining the highest quality.

Mojmír Horák

SPARE PARTS FOR MILITARY EQUIPMENT

We have manufactured and sold spare parts for tracked and wheeled military equipment for many years. We have been reliable long-term partners to our customers. We guarantee that our parts and subsequent service are of the highest quality. We are currently able to produce any part according to the graphical documentation. If the documentation is unavailable for any reason, we are able to create the missing documentation based on a sample part and thus recommence production of the part.

MOST POPULAR SPARE PARTS

Our most sought-after spare parts include vehicle tracks with rubber pads, radiators and wheels for the military equipment listed below.

Tracked equipment:

- BMP-1, BMP-2, VPV
- T-55, T-62, T-72 M1, VT-55, VT-72
- MTLB, MTLB-2S1, GM 568, GM 578, SHILKA, 2S5-AKATSYA
- OT-62, BTR-50

Wheeled equipment:

- All varieties of TATRA vehicles and bogies 2.BRDM-2
- BTR-60, BTR8-80
- OT-64
- KRAZ, KAMAZ, URAL, ZIL

MAIN MANUFACTURED ITEMS

The following high-quality parts are the most requested:

- vehicle wheels
- vehicle tracks, including tracks with rubber pads
- water or oil radiators
- oil, air, and fuel filters
- discharge valves, check valves, pressure regulator valves and electro-pneumatic valves
- coupling plates or plates for directional devices

Our spare parts have met the exacting specifications of the national armies of states such as Egypt, Algeria, Slovakia, India, Poland, Ukraine, Hungary and Bulgaria.
